

HS INFRA

Secure Infrastructure Specialists

Welcome to our Company

HS Infra offer a wide range of solutions to our highly regulated client base across the UK and overseas to help protect people and valuable assets.

Our solutions, which are shaped by decades of previous military experience, adopt the layered approach to security (defence in depth) to provide physical and electronic safeguards against unauthorised access to business critical and sensitive information. Our team of security cleared professionals remain agile and adapt swiftly to the changing requirements and environments to deliver outstanding results with precision and integrity, on time, on budget and to the highest quality.

Our values and principles are underpinned by our desire to deliver excellence in everything we do.

- Founded in 2015
- Veteran owned Company
- Specialist SME for Defence
- Armed Forces Covenant: Employer Recognition Scheme, Gold Award 2022
- ISO 9001 Quality Management
- ISO 27001 Information Security
- Constructionline Gold
- MOD Compliance

Our Solutions

We strive to be involved in the full lifecycle of delivering our solutions and we provide our clients with support at the very early stages of programmes and projects to see them through to completion. Our staff operate at the highest levels of security clearances and we integrate with clients to deliver comprehensive, integrated solutions. Our solutions portfolio include, but are not exclusive to the following:

- Consultancy
- Design Consultancy
- Main Contractor
- Structured Cabling Solutions
- As A Service
- Audio Visual Solutions
- Technical Surveillance Counter Measures (TSCM)
- Sensitive Compartmented Information Facility (SCIF)

Consultancy

Our qualified and highly motivated, security cleared Consultants offer business analysis advice and expertise to client organisations to help improve their business performance ranging from IT operations, strategy, digital transformation, programme & project management, security and risk management. Specialising in delivering high security consultancy services to the public sector, we aim to be involved at the earliest stages of projects to develop User Requirements through to project closure, knowledge base management and Lessons Identified.

Design Consultancy

We deliver innovative design solutions to RIBA stage 4 with security, resilience, sustainability, energy efficiency and compliance at the heart of our designs. Our motivated and professional design consultants cater for all aspects of Architectural Services, BREEAM and DREAM, Planning & Groundworks, Underground Pit and Duct Systems, Mechanical & Electrical, Data & Communications, Fire Systems and Suppression, Physical Security, Perimeter Security & Alarm Systems.

Main Contractor

We deliver challenging and complex construction projects (including those with high security requirements) for public and private sector clients. We are security cleared to the highest levels to provide building refurbishments, new builds, engineering and fit-out services of facilities. We have a robust supply chain with logistics support to successfully deliver projects within the CDM regulations.

Structured Cabling Solutions

We design and deliver fully compliant copper and fibre optic structured cabling for the public and private sectors. We fit out a wide range of solutions including Data Centres, Network Rooms, high security facilities and office spaces. We specialise in UK MOD SCIDA compliance for our public sector and highly regulated clients to ensure our cabling solutions meet the stringent security regulations. Services include surveys to determine the quality of existing infrastructure.

As A Service

We provide onsite services to our clients which include:

- Daily support to existing Infrastructure and management of new projects
- Break/fix services for structured cabling faults
- Audio Visual support, maintenance and training
- Providing security cleared escorts for restricted sites to facilitate site wide works

Audio Visual Solutions

We utilise the latest technology to provide the ultimate video wall experience for our clients. Our advanced technologies create more sophisticated imagery and higher quality sound, in addition our systems are easier to control and are reliable. We provide full design services and take care of all procurement, installation and commissioning whilst providing user training and after sales support. Our public sector solutions are approved to operate at the highest levels of security & compliance.

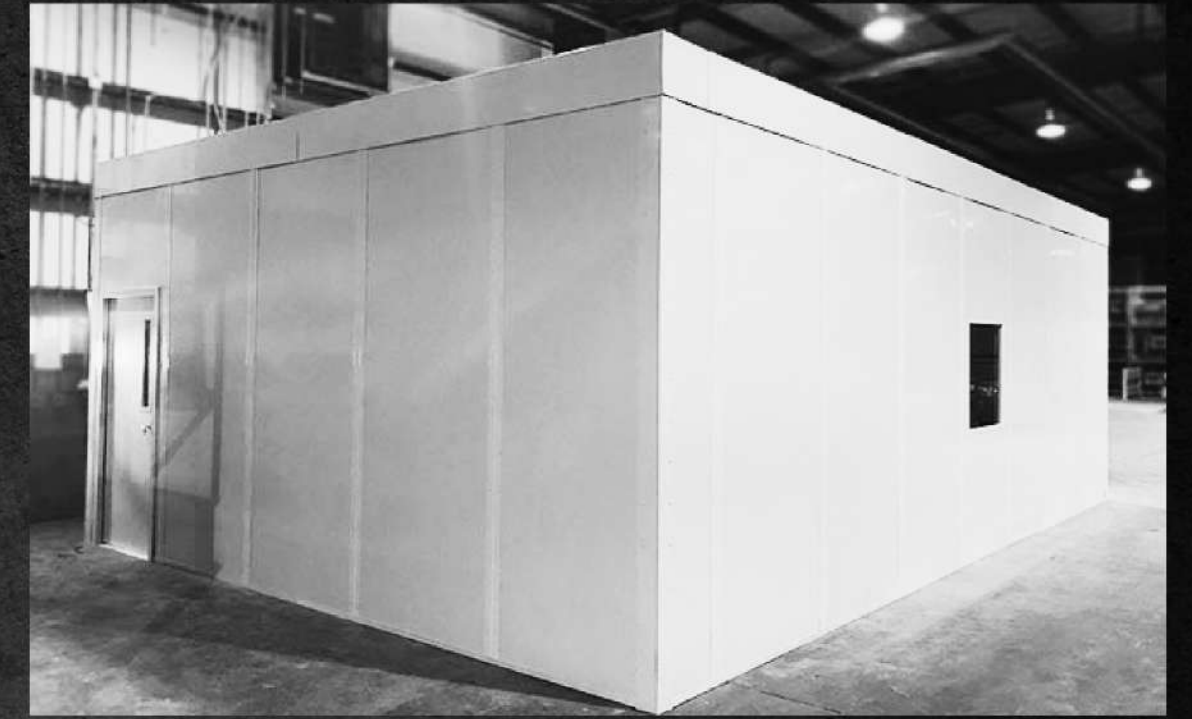

Technical Surveillance Counter Measures (TSCM)

We carry out TSCM inspections (also known as 'sweeps') to provide eavesdropping peace of mind to clients where external threats can be a real problem for individuals and businesses. A broad security policy which covers physical security, cyber security and electronic security will ensure your premises and data remain secure. Technical Surveillance Counter Measures should be considered as surveillance technologies can be extremely sophisticated and can be 'well hidden'.

Containerised and deployable High Security Facilities (up to 40ft in size)

We provide containerised Sensitive Compartmented Information Facility (SCIF) products which are high secure, spy-proof facilities built to control access to sensitive information, guard against electronic surveillance and prevent data leakage. We specialise in physical security & hardening, acoustic controls, visual controls, alarms & access control and electronic and TEMPEST security. Our containerised SCIFs are ideal for fast deployments globally.

Modular High Security Facilities

For more static requirements, our modular Sensitive Compartmented Information Facility (SCIF) products offer the same high secure, spy-proof capabilities as our containerised models. Our modular solutions are designed and built to the client's individual performance requirements and can be utilised as Secure Data Centres and Operations Rooms.

Armed Forces Covenant

**EMPLOYER
RECOGNITION
SCHEME**

GOLD AWARD 2022

The Armed Forces Covenant is a promise by the nation that those who serve or have served in the Armed Forces, and their families, should be treated fairly and should not face disadvantages when seeking to access public or private goods and services in the UK.

As proud supporters of the Armed Forces Covenant we are delighted to hold the Gold Award in the Employers Recognition Scheme (ERS) which demonstrates our unrelenting commitment to our Veterans, Families and Spouses of the Armed Forces community. Our bonds with the Armed Forces community run deep and we offer unconditional support to our brethren and their families.

We encourage our suppliers and clients to sign the Covenant.

Sustainability

HS Infra Ltd is committed to achieving Net Zero emissions by 2050.

Combating climate change and working towards net zero greenhouse gas emission is one of the biggest challenges we face today. We recognise that to achieve success, all elements of our employees, supply chain, partners and customers must contribute. We see Government contracts as a huge opportunity to further expand our efforts, delivering additional environmental benefits wherever possible.

Our main objectives of climate change support activities, in pursuit of our goal to reach net zero carbon emissions are:

- Improve awareness and understanding of climate change amongst our employees, supply chain, partners and customers.
- Demonstrate that daily activities can collectively make a big difference and that everyone has a role to play in the fight against climate change.
- To motivate employees, supply chain, partners and customers to undertake these small significant changes to their daily routines.
- We have a Carbon Reduction Plan which sets out our plan to reduce our carbon footprint by 36% by 2030 and to achieve Net Zero by 2050.

Visit our website to view our Carbon Reduction Plan.

Our Certifications

Our Promise

The company Directors, Debbie and Steve Hutchinson are both military veterans who have enjoyed distinguished careers in the Armed Forces. Their leadership, values, impeccably high standards and a keen eye for detail effortlessly flow through the company and are evident everything we do.

Our highly regulated clients demand the very best, sometimes in tough demanding conditions and this is where we thrive. High standards, trust and a genuine sense of belonging shine through the company and we all stand by our vision of 'relentless dedication to deliver excellence'.

Customer satisfaction speaks volumes and we are proud to continually deliver success for our existing and new clients.

" A great team to work with, who did their utmost to ensure that the project was delivered on time through the COVID 19 pandemic"

MOD Project Manger

"HS Infra were a joy to work with. They delivered everything we asked of them, on time. I would have no hesitation using them again and recommend them to any Client looking for SCIDA accredited structured cable work."

Vinci Project Manager

"It was a pleasure working with the HS Infra team who were approachable, professional and easy to work with. They made some dry and sometimes difficult to understand topics easy to follow and understand."

Project Manger, Tetra Tech PLC
